**Description**

Journal of Applied Finance and Accounting (JAFA) is a scientific journal published twice a year, June and December. It showcases useful theoretical and methodological results with the support of interesting empirical applications in the area of Finance and Accounting. Purely theoretical and methodological research with the potential for important applications is also published. Articles in the journal may examine significant research questions from a broad range of perspective including economics, sustainability, organizational studies and other theories related to accounting and finance phenomena.
