

## **Letter of Apology and Notice of Retraction**

Dear The Winners,

My co-authors and I submitted a journal article titled "The Outbreak of COVID-19 and Islamic Stock Market Responses in Indonesia", which has been published in The Winners Vol. 22 No. 2 (September 2021).

In this regard, I respectfully write this to the Editor-in-Chief of the Winners journal. I am aware that the published article causes an ethical violation of the publication due to translingual plagiarism. The article contains a completely similar content as a student thesis from IPB University (Institut Pertanian Bogor)<sup>1</sup>. The similarity lies throughout the body of the article manuscript from the title to the references, while the difference lies only in the author of the script.

Therefore, I respectfully ask to retract the article "The Outbreak of COVID-19 and Islamic Stock Market Responses in Indonesia" written by Rianda Rizky Permata, Budi Purwanto, and Wita Juwita Ermawati.

I apologize to the Editor-in-Chief of The Winners, managing editors, and The Winners journal publishing team.

Thank you for your attention.
